

**Bridlington Town Centre Area Action Plan:
Minor Post-publication Proposed Changes - Part 3**
Minor Post-publication Proposed Changes to the Sustainability Appraisal Report

Introduction

Part 3 of the minor post-publication proposed changes to the Bridlington Town Centre AAP set out the changes needed to improve the accuracy and clarity of the Sustainability Appraisal Report. The changes are in response to representations by Communities Against Toxics, Hull Friends of the Earth, Mr Shlomo Downen and English Heritage.

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
Appendix A2 – Waste Generation Quantified Data	Update	<p>2008-2009: <u>East Riding produced 199,846 tonnes of municipal waste. This waste was managed as follows:</u> <u>Landfill: 62.23%</u> <u>Incineration with EfW: 0.04%</u> <u>Incineration without EfW: 0.00%</u> <u>Recycled/composted: 37.74%</u></p> <p>811 annual tonnes of commercial and industrial waste will require to be managed by 2021 in East Riding.</p> <p>2007/08: 560 kg – household waste arising per person</p>	Updated waste data requested following consultation comment.
Appendix A2 – Waste Generation Comparators	Update	<p>2008-2009: <u>England produced 27,394,948 tonnes of municipal waste. This waste was managed as follows:</u></p>	Updated waste data requested following consultation comment.

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p><u>Landfill: 50.32%</u> <u>Incineration with EfW: 12.14%</u> <u>Incineration without EfW: 0.02%</u> <u>Recycled/composted: 36.80%</u></p> <p>In 2004 the UK produced 30.2 million tonnes of household waste. UK household waste per capita (kg/person) in 2004-5: 517, of which:</p> <p>a) waste not recycled: 404 b) recycled: 113</p> <p>England per person: 2005/06: 505 kg 3466 annual tonnes to be managed by 2021 in Humber; 8985 tonnes for Yorkshire and Humber region.</p> <p>By 2012, a 50% reduction of construction, demolition and excavation waste to landfill compared to 2008 will be required in the UK.</p>	
Appendix A2 – Waste Generation Trends and targets	Update	<p><u>2007-2008:</u> <u>East Riding produced 207,932 tonnes of municipal waste. This waste was managed as follows:</u> <u>Landfill: 64.39%</u> <u>Incineration with EfW: 0.03%</u> <u>Incineration without EfW: 0.00%</u> <u>Recycled/composted: 35.58%</u></p>	Updated waste data requested following consultation comment.

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p><u>England produced 28,506,885 tonnes of municipal waste. This waste was managed as follows:</u> <u>Landfill: 54.42%</u> <u>Incineration with EfW: 11.10%</u> <u>Incineration without EfW: 0.02%</u> <u>Recycled/composted: 34.04%</u></p> <p><u>2006-2007:</u> <u>East Riding produced 211,669 tonnes of municipal waste. This waste was managed as follows:</u> <u>Landfill: 65.73%</u> <u>Incineration with EfW: 0.01%</u> <u>Incineration without EfW: 0.01%</u> <u>Recycled/composted: 34.24%</u></p> <p><u>England produced 29,187,558 tonnes of municipal waste. This waste was managed as follows:</u> <u>Landfill: 57.87%</u> <u>Incineration with EfW: 11.07%</u> <u>Incineration without EfW: 0.02%</u> <u>Recycled/composted: 30.62%</u></p> <p>Target for 0% waste growth in East Riding by 2012/13</p>	

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p>Household waste arisings in the East Riding increased slightly from the 2003/04 level of 194,684 tonnes to 200,092 tonnes in 2005/06 but this is a minor reduction compared to 204,205 tonnes in 2004/05. The 2007/08 data show a further increase to 207,932 tonnes. The amount of waste generated per household decreased slightly between 2003/04 (1.39 tonnes) and 2005/06 (1.37 tonnes). The amount of household waste collected per head increased substantially from 551.7 kilograms in 2003/04 to 610 kilograms in 2005/06, which is significantly higher than the England average of 505 kilograms in the same period. However, the most recent 2007/08 data show a reverse trend with a decline of household waste arisings per person to 560 kilograms.</p>	
Appendix A2 – Waste Generation Issues Identifies	Update	<p><u>The total volume of municipal waste produced in East Riding has decreased since 2007. The proportion of waste sent to landfill has decreased slightly over this period, with an increase in the volume of recycled and composted waste. These trends broadly reflect those observed for England as a whole. However, the proportion of waste sent to landfill is significantly higher in East Riding than the average proportion sent to landfill across England.</u></p> <p>Waste arisings are growing rapidly, which puts operational and financial burdens on the waste management infrastructure and makes meeting recycling and recovery targets challenging.</p>	Updated waste data requested following consultation comment.
Appendix A2 – Waste Generation Source	Update	<p><u>Defra municipal waste statistics:</u> http://www.defra.gov.uk/evidence/statistics/environment/wastats/index.htm</p>	Updated waste data requested following consultation comment.

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p>TARGET 45 +Sustainable Waste Management Strategy http://www.target45plus.org.uk/target45/facts/facts_eastriding.html East riding council website http://www.eastriding.gov.uk/environment/recycling/facts.html DEFRA http://www.defra.gov.uk/environment/statistics/waste/kf/wrkf04.htm http://www.defra.gov.uk/environment/statistics/wastats/archive/mwb200708a.xls http://www.bvpi.gov.uk/pages/SignIn.asp (BV84a – waste per head)</p>	
Appendix A2 – Household Waste Management Quantified Data	Update	<p>2008/09: 540kg of household waste per person was produced in East Riding. Of this waste: Reuse, recycling or composting: 33.77% Landfill: 62.23%</p> <p>An active non-hazardous landfill site, Carnaby Landfill Site, is located near to Bridlington.</p> <p>2007/08: 31.32% household waste recycled and composted 64% household waste landfilled</p>	Updated waste data requested following consultation comment.

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p>Current (2008 for East Riding):</p> <ul style="list-style-type: none"> • 98% of residents have their refuse collected via weekly wheeled bins • 10 household waste recycling sites at Carnaby, Preston, Driffield, Hornsea, Withernsea, Humberfield, Gallymoor, Pocklington, Weel. • Approx. 140 bring sites for dry recyclables in East Riding • Home composters available at reduced prices. <p>662 tonnes municipal solid waste to be managed by 2021 in East Riding.</p>	
Appendix A2 – Household Waste Management Comparators	Update	<p>In 2007/08 the proportion of England’s waste which was sent to landfill was 54.6%, the proportion which was recycled and recovered was 34% and the proportion used for energy recovery was 12.2%</p> <p>Regional Average 2005/06: Recycling and Composting: 23%</p> <p>England 2005/06: Recycling and Composting: 27%</p> <p>3384 tonnes municipal solid waste to be managed by 2021 in Yorkshire and Humber.</p>	Updated waste data requested following consultation comment.
Appendix A2 – Household Waste	Update	2007/08: 560kg of household waste per person. Of this waste:	Updated waste data requested

Management Trends and targets		<p>Reuse, recycling or composting: 31.32%</p> <p>Landfill: 68.64%</p> <p>Incineration: 0.03%</p> <p>2006/07: 576kg of household waste per person. Of this waste:</p> <p>Reuse, recycling or composting: 29.59%</p> <p>Landfill: 70.94%</p> <p>Incineration: 0.02%</p> <p>Recycling:</p> <p>2006/07 – 20.8%</p> <p>2005/06 – 17.27%</p> <p>2004/05 – 11.97%</p> <p>Composting:</p> <p>2006/07 – 8.79%</p> <p>2005/06 – 7.49%</p> <p>2004/05 – 6.8%</p> <p>Heat, power and energy recovering:</p> <p>2006/07 – 0.02%</p> <p>2005/06 – 0%</p> <p>2004/05 – 0%</p> <p>Landfilling:</p> <p>2006/07 – 70.94%</p> <p>2005/06 – 75.24%</p>	following consultation comment.

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p>2004/05 – 81.23%</p> <p>Recycling targets:</p> <p>2003/04 - 18%</p> <p>2005/06 - 27%</p> <p>East Riding:</p> <p>Recycling:</p> <p>2002/03: 7.3%</p> <p>2003/04: 8.6%</p> <p>Composting:</p> <p>2002/03: 6.0%</p> <p>2003/04: 5.8%</p> <p>Landfilling:</p> <p>2002/03: 86.7%</p> <p>2003/04: 85.6%</p> <p>In 2005/06:</p> <p>24.2% household waste recycled and composted</p> <p>75.7% household waste landfilled</p> <p>Recycling targets:</p>	

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p>2003/04: 18%</p> <p>2005/06: 27%</p> <p>Recycling and composting target:</p> <p>ERYC recycling and composting targets:</p> <p>2007/08: 30%</p> <p>2008/09: 40%</p> <p>2009/10: 45%</p> <p>Joint targets for East Riding and Hull:</p> <ul style="list-style-type: none"> • Increase participation of existing kerbside schemes to 80% of all households; • Improvements to household waste recycling sites (to reach standard of Carnaby and Burma Drive by 2009/10; • Materials Reclamation Facility to be developed 2008/09; • Operational in-vessel composting facility in operation by 2008/09; and • New waste transfer facility by 2008/09. 	
Appendix A2 – Household Waste Management Issues Identified	Update	<p>The volume of household waste produced per capita in East Riding has reduced since 2006/07. The proportion of this waste which has been diverted from landfill has also reduced but is higher than that for England as a whole.</p> <p>The level of recycling and composting increased to 24.2% in 2005/06 from 14.4% in 2003/04. However, it was still below the</p>	Updated waste data requested following consultation comment.

Policy / Paragraph / Page Reference	The accuracy / clarity / up to date issue	Proposed Edit (strike through for deletions, underline for additions)	Justification for the Proposed Edit
		<p>target of 27%. The amount of waste landfilled decreased to 75.7% in 2005/06 from more than 85% in 2003/2004. The local percentage of waste recycled and composted in 2005/06 was higher than in the region (23%) but lower than the England average of 27%. The 2007/08 data show a further increase in the recycling and composting rate of household waste to 31.32% and a decrease in the amount of waste landfilled – 64%. This level of recycling and composting met the target of 30% for 2007/08. The Council aims to further increase its recycling and composting rate to 40% over 2008/09 and 45% over 2009/10. There are currently no energy from waste facilities in East Riding.</p> <p>The active non-hazardous Carnaby Landfill Site is located near to Bridlington</p> <p>The following industrial sites generating waste are monitored by the Environment Agency:</p> <p>Yorkshire Water Services Ltd, Bridlington, a Sewage Treatment Works releasing organic carbon substances into controlled waters; and</p> <p>Humberside Wastewise Waste Management Services Ltd, Bridlington, a landfill.</p>

Core Document 18: Part 3

15	To protect and enhance heritage assets and their settings	Good	Med	Stable	+/-	Sub-Reg	ST-LT	Perm	Med		-	++	+++	+/-	<p>The marina development incorporates measures to protect the listed pier structures and the design precedents set out for the marina in terms of the contribution it should make to the overall image of Bridlington lead to the assessment that it will improve the overall setting of the historic town. The commitment to regeneration of the historic Harbour for Burlington Parade proposals, the better integration of the Harbour with the Town Centre and attention to protection and enhancement of the setting of Listed Piers further strengthens performance against this objective. <u>In the short term effects of construction are likely to result in negative effects on the pier. This has been addressed through revision of the AAP, which cross references requirements of Policy HE9 of Planning Policy Statement 5 to limit harm to designated heritage assets.</u></p>
