Dear Ms Worden,

### Exploratory Meeting – Next Steps

I refer to the letter dated 28 June 2011 from Carmel Edwards. I am pleased that the exploratory meeting was helpful to you.

The papers the Authority offered to prepare in respect of (i) the matters taken into consideration in funding the proposals, and (ii) the continuation of operation of the harbour during redevelopment, are almost complete, and should be with you within the next seven days.

Whilst the Local Planning Authority is minded to proceed to examination of the plan, it would be very helpful to our consideration of issues, if you could provide a little more detail as to the specifics of your concerns regarding flexibility, clarity and coherence. At present, the generalised nature of the comment does not assist the Authority in understanding the extent to which your concerns are significant, or whether it is envisaged that the issues can be dealt with by way of adjustment to the wording of the Plan.

I am mindful that you require a formal response from the Local Planning Authority by 15th July, and therefore look forward to receiving your response as soon as possible.

Yours sincerely,

John Lister  
Head of Bridlington Renaissance
